Synopsis:

This documentary traces the history of money back to ancient times and explains how the currencies we use today lost their tether to gold. If money is solely based on trust, can a fairer, more technologically advanced and decentralised alternative – Bitcoin challenge our financial, economical and even political power structures? Follow down the rabbit hole with the true insiders and experts with award-winning filmmaker Torsten Hoffmann. This documentary is an upgraded and updated version of Bitcoin: The End of Money from 2015 and features footage and commentary filmed between 2014 and 2022.
